Municipal Grants in Aid Guide

Each year, as part of its annual budget process, Council determines the amount of funding to be provided from its operational budget for all municipal grants in aid. These grants may benefit specific community groups in their capital or operational endeavors or may be event or program specific.

A key aspect motivating the provision of these grants is that the endeavor, program or event provides a significant benefit to the community.

Applicants for a municipal grant in aid should provide the following information:

- Objectives of the endeavor, program or event.
- Targeted audience or participants and expected attendance.
- Proposed advertising and promotion of the project.
- Past history of the project.
- Other sources of funding.
- Expected benefits to the community.

Council may require additional information, at their discretion, to properly review grant in aid requests.

2018 Grant in aid requests must be received by February 2nd, 2018 to allow for application administration and Council consideration.

Applications can be submitted to:
